

Company Mission

SOS Systems' products are designed to keep equipment running efficiently, minimize your operating expenses & keep your workspace safe, clean & in compliance.

One of our primary objectives is aimed at helping you mitigate slip incidents, fire & combustion hazards & ultimately the potential for remarkable bodily injury or death.

Core Competencies

SOS Systems' Hotter N Hell Degreaser is the only industrial strength, non-hazardous, non-corrosive, product in its class which is hand mixed only by SOS personnel.

- Direct manufacturer & supplier within fully enclosed 17,800 sq ft fulfillment facility in Odessa, Texas.
- Current output volume of 8,400 gallons/day.
- EVENMIX equipment is exclusively utilized through the production process to provide QAQC measures for consistent blends of our product.
- Facility equipped with automated 5-gallon bucket, 55-gallon drum & 275-gallon tote, filling & packaging equipment manufactured by PAQUIP, allows for a precise and repeatable filling process.
- Strategic partnerships with prominent regional suppliers provide reliable supply chains & timely delivery.

Performance

SOS Systems has produced over \$2mm in gross annual receipts, servicing numerous states across the lower 48 and Canada. Over 65k gallons of Hotter N Hell have been produced within the past year with a year over year growth projection of 300%+.

City of Andrews, Texas – 275-gallon tote/month used for maintenance & cleaning of their waste equipment & trucks.

Bridgestone Hose Power – 5-gallon bucket pallets (36 buckets/pallet) delivered to each Texas based storefront- Selling out within 24 hours.

British Petroleum – Mobilize multiple pallets of 5-gallon buckets & 55-gallon drums to be used for offshore maintenance processes.

ProFrac – Utilize 275-gallon totes in their wash bays as part of their Maintenance program for all their hydraulic fracturing equipment.
